FÄRGBLOCK

Färgblock is the stoneware collection developed by the designer Tekla Evelina Severin, specifically to create a ceramic series that is lively, versatile and highly appealing. Färgblock ensures maximum freedom of expression by creating a choice of colour blocks or tone-on-tone patterns.

To offer even greater levels of personalisation, the series has now been amplified to include:

- The new 15x15 format available in all colours in a matt version only.
- The colour black in all formats in both gloss and matt versions.
- The new Cirkel decoration, consisting of Cirkel out and Cirkel in, a half-moon, water-jet cut 15x15 tile.

Tekla designed the Cirkel decoration, taking inspiration from the sun disappearing at sunset, and applying it to the entire Färgblock palette thanks to her experience as a colour expert.

Cirkel offers endless combinations, as its semicircular or crescent moon shape creates an infinity of patterns, depending on how it is positioned. Another element that influences the final effect is the choice of tone-on-tone or contrasting grouts that make the design even more distinctive.

Färgblock è la collezione in gres sviluppata dalla designer Tekla Evelina Severin, nata dalla volontà di creare una serie vivace, versatile e di grande appeal. Färgblock è in grado di offrire massima libertà espressiva grazie alla possibilità di creare blocchi di colore o pattern tono su tono.

Per aumentare le possibilità di personalizzazione la serie è stata ampliata con:

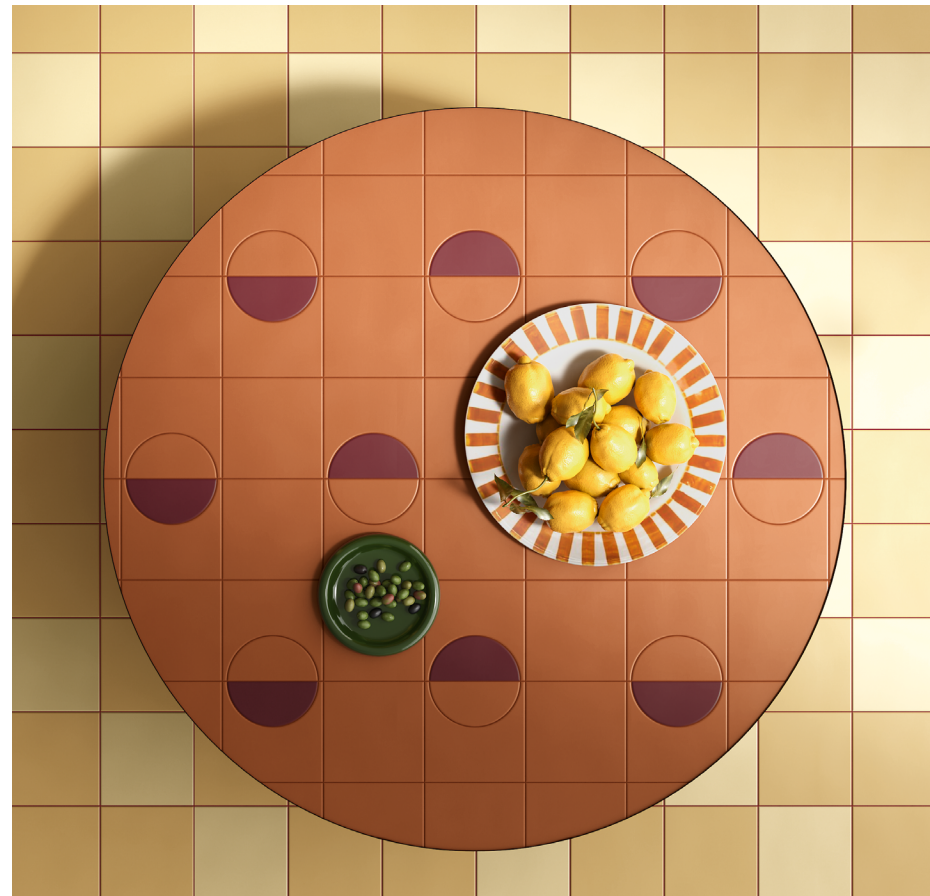

- Il nuovo formato 15x15 disponibile in tutti i colori solo nella versione matt;
- Il colore nero in tutti i formati e nella versione lucida e matt;
- Il nuovo decoro Cirkel, composto da Cirkel out e Cirkel in, una mezzaluna ricavata dal taglio a idrogetto del 15x15.

Tekla ha disegnato il decoro Cirkel ispirandosi al sole che al tramonto scompare, ed essendo un'esperta del colore lo ha immaginato in tutti i colori della palette di Färgblock.

Cirkel offre infinite combinazioni: la forma del semicerchio o mezzaluna, a seconda di come viene posizionata crea pattern sempre diversi. Un altro elemento che caratterizza la posa è lo stucco, a tono o a contrasto conferisce maggiore personalità al progetto.

Färgblo

- Le nouveau format 15x15 disponible dans toutes les couleurs uniquement en version mate;
- La couleur noire dans tous les formats et en version brillante et mate;
- Le nouveau décor Cirkel, composé de

Cirkel out et Cirkel in, un croissant obtenu à partir de la découpe à jet d'eau du 15x15. Tekla a conçu la décoration Cirkel en s'inspirant du soleil qui disparaît au coucher du soleil, et en tant qu'experte, elle a imaginé ce décor dans toutes les couleurs de la palette Färgblo

Cirkel offre des combinaisons infinies : la forme du demi-cercle ou du croissant, selon la façon dont il est positionné, crée des motifs toujours différents. Un autre élément qui caractérise

l'installation est le joint, en ton sur ton ou en contraste, qui donne une plus grande personnalité à chaque projet.
